## EDUCATION

University of Antioquia  
Electronic Engineer

## EDUCATION AS A DEVELOPER

During my career preparation I learned and worked with several languages like Assembler Java, C, C ++. I quickly noted that these languages were not the trends of the market and industry today. Consequently I expanded my skills and knowledge to include cutting edge resources to increase my level as a WEB developer. The courses taken are:

Makeitreal.camp - Immersive bootcamp (Finished)

- <http://makeitreal.camp>

One Month Rails (Completed with certificate)

- <http://onemonth.com>

And courses on platforms like:

- <http://teamtreehouse.com/home>
- <https://www.codeschool.com/>

## EXPERIENCE AS A WEB DEVELOPER

I recently finished an immersion bootcamp course to develop WEB applications. My evolution detailing my experience as a developer can be seen at the following link:

- <https://github.com/Mardiniii>

My primary goal is to find a work environment that aligns with my interests and skills. It will also assist my learning and development to exploit and use all the skills and abilities that I will develop as a WEB developer.
